

ARTIN (ALIREZA) KAVOOSI M.Sc.

EDUCATION	University of Tehran <i>M.Sc. in System Modeling and Data Analytics</i> - GPA: 18.62/20, (4/4) - Supervisor: Prof. Tavakkoli-Moghaddam - Thesis: “Towards Autonomous Supply Chains for Perishable Products: Learning-Based Decision-Making for Coordination, Competition, and Resilience” (expected completion: Dec 2026)	Tehran, Iran Sep 2023 - Present
	Kharazmi University <i>B.S. in Industrial Engineering</i> GPA: 16.44/20	Tehran, Iran Sep 2019 - Jun 2023
RESEARCH INTERESTS	Methods: Optimization, Machine Learning, Domain: Healthcare Operations, Inventory Management, Supply Chain Design	
PUBLICATIONS	Published Papers - Kavoosi, A., Tavakkoli-Moghaddam, R., Sajedi, H., Tajik, N., & Tafakkori, K. (2025) Dynamic Pricing and Inventory Control of Perishable Products by a Deep Reinforcement Learning Algorithm. <i>Expert Systems with Applications</i>, 291, 128570 [DOI]. Preprint Papers - Kavoosi, A. (2026) Stochastic Queens Elimination. Available online (SSRN). Project page: akavosi.github.io/blog/posts/sqep.html Working and under review papers - Kavoosi, A., Tavakkoli-Moghaddam, R., Ziari, M., & Azaron, A. Coordinating Pricing and Replenishment in a Blood Supply Chain with Deep Reinforcement Learning. Under review. - Kavoosi, A., Tavakkoli-Moghaddam, R. Disruption-Resilient Blood Supply Chain by a Structural Causal Graph Dynamics and Decentralized Reinforcement Learning Approach. Under review. - Kavoosi, A., Tavakkoli-Moghaddam, R., Ghaderi, S.F. Cross-Entropy Neural Networks for Mixed Strategies in a Finite-Horizon Supplier–Retailer Inventory Duopoly with Lead Times and Rationing. Submitted. - Kavoosi, A., Tavakkoli-Moghaddam, R. Online Learning of Neural Ordinary Differential Equations for Dynamic Inventory Control under Non-Stationary Demand. Submitted.	
AWARDS AND HONORS	Top 0.4% among +10,000, University Master’s Degree Entrance Exam (Konkour) in Iran, Industrial Engineering 2023 Top 1% among +150,000, Nationwide University Entrance Exam (Konkour) in Iran, Mathematics and Physics 2019	

ACADEMIC EXPERIENCE	Research assistant University of Tehran Sep 2024 - Present Studying and researching on inventory control and supply chain problems, supervised by Prof. Tavakkoli-Moghaddam.	
	Teaching assistant University of Tehran Mar 2024 - Sep 2025 - Machine learning (Spring 2025, Instructor: Prof. Jamili) - Macroeconomics (Spring 2025, Instructor: Prof. Ghaderi) - Soft computing (Fall 2024, Instructor: Prof. Tavakkoli-Moghaddam) - Linear algebra (Spring 2024, Instructor: Prof. Rahbari)	
	Teaching Assistant Kharazmi University Mar 2023 - Jan 2023 Engineering mathematics II (Spring 2023, Instructor: Prof. Khamse)	
WORK EXPERIENCE	Business Partner Family Fashion Boutiques (Privately Owned) Jun 2020 - Present - Co-manage three family-owned fashion boutiques (Aylar & Tirajeh) serving customers across Tehran Province, Iran. - Oversee daily store operations, including inventory management, merchandising, and sales activities. - Deliver high-quality customer service while supporting business growth and maintaining long-term customer relationships.	
	Research Intern Sapco Company Apr 2022 - Oct 2022 - On data-driven transportation cost estimation, application of SAP tools and software to optimize inventory operations, and analyzing workflows using BPMN. - SAPCO is an Iranian automotive parts supply and procurement company that manages the sourcing and quality of components for Iran Khodro, one of Iran's largest automotive manufacturers.	
SERVICE	Reviewer for <i>Transportation Research Part E: Logistics and Transportation Review</i>	
SKILLS	Software: Python, Julia, GAMS, IBM SPSS, LaTeX. Languages: Persian (Native), Turkish (Native), English (Professional).
